

SUPPLIER DECLARATION OF COMPLIANCE

Regulation (EU) 2025/40 — Packaging and Packaging Waste Regulation (PPWR)

Article 5 — Substances of Concern | Article 16 — Upstream Supplier Obligations

Issuer:	Pásky s.r.o., Křižíkova 237/36a, 186 00 Praha 8, Czech Republic IČO: 26271279
Products covered:	Printed adhesive tapes — PVC film / solvent-based adhesive
Intended use:	Sealing of transport packaging units placed on the EU market — packaging components within the scope of Regulation (EU) 2025/40
Issue date:	22 June 2026

Pásky s.r.o. hereby declares that the printed adhesive tapes described above comply with the requirements of Article 5 of Regulation (EU) 2025/40 of the European Parliament and of the Council on packaging and packaging waste (PPWR) with respect to substances of concern, to the best of our knowledge and on the basis of technical documentation held by us and available to competent authorities upon request.

Pásky s.r.o. is not a manufacturer of chemical substances. When assessing compliance with chemical requirements, we rely on verified declarations from our suppliers and on detailed knowledge of our own production processes.

Requirement (PPWR Article 5)	Compliant	Basis of Declaration
No intentionally added per- and polyfluoroalkyl substances (PFAS)	YES	Supplier declarations from all material input vendors; PFAS (PFOA, PFOS, PFHxS) are not intentionally added to the products
Sum of heavy metals (Pb + Cd + Hg + Cr ⁶⁺) does not exceed 100 ppm	YES	Supplier declarations from all material input vendors; compliant with Directive 94/62/EC and PPWR Art. 5; maximum combined content does not exceed 100 mg/kg
No intentionally added Bisphenol A (BPA)	YES	Supplier declarations from all material input vendors; technical documentation on file
No phthalates (including DEHP, DBP, BBP, DIBP, DINP, DIDP, DnOP, DMP, DEP)	YES	Supplier declarations from all material input vendors; technical documentation on file; confirmed absence of all listed phthalate variants
No substances classified CMR Cat. 1A/1B intentionally added	YES	Supplier declarations from all material input vendors; compliance confirmed for all material inputs including printing inks (EuPIA exclusion policy, 8th edition, April 2024)
No SVHC (Substances of Very High Concern) above 0.1% w/w — ECHA Candidate List to 4 February 2026 (ECHA/NR/26/06)	YES	Supplier declarations; compliant with Regulation (EC) No 1907/2006 Art. 59(10); no SVHC including toluene, formaldehyde or ozone-depleting substances
No oxo-degradable plastics	YES	Supplier declarations from all material input vendors; product material specifications on file

Requirement (PPWR Article 5)	Compliant	Basis of Declaration
No polystyrene	YES	Supplier declarations from all material input vendors; product material specifications on file
No chlorine-bleached paper or cardboard	YES	Supplier declarations from paper core manufacturer; technical documentation on file

Notes

1. This declaration covers substance-level compliance under PPWR Article 5 for the material inputs of the products described above. Pásky s.r.o. maintains technical documentation substantiating this declaration, which is available to competent national market surveillance authorities upon request.
2. PVC film with solvent-based adhesive constitutes a multi-component structure. Based on the current state of EU mechanical recycling infrastructure, this product type is not intended for mechanical material recycling and may be subject to energy recovery in accordance with applicable waste management regulations. Chemical recycling pathways exist in principle but are not yet available at industrial scale within the EU. Adhesive tapes applied to cardboard packaging do not adversely affect the recycling stream of paper and board, as they are designed to be compatible with standard paper recycling processes and do not hinder material recovery.
3. Recyclability assessment grades (A–E) under PPWR Article 6 cannot be assigned at this stage, as the harmonised Design for Recycling criteria and delegated acts of the European Commission are expected to be published by 2028.
4. Independent laboratory quantification of PFAS pursuant to an EU-accredited measurement methodology is not yet available, as the Commission has not yet published the harmonised test method. This declaration will be supplemented with laboratory test reports upon availability of an accredited protocol.
5. Pásky s.r.o. undertakes to notify its customers without delay of any changes to material composition, chemical formulation, or upstream suppliers that affect the accuracy of this declaration, in accordance with PPWR Annex VII.

Pásky s.r.o.

Date: 7 Juli 2026

This declaration is issued in good faith on the basis of information available at the date of issue. It does not constitute a legally binding guarantee of conformity of the finished packaged product placed on the market by the customer. The manufacturer of the finished product retains full responsibility for compliance under Article 15 of Regulation (EU) 2025/40.
